Laser Dentistry

Deep Dive into Diode & Pulpal Management 2027

- Lecture & Hands-on

SYDNEY

20-21 Feb 2027,
Sat-Sun, 9:00am - 5:00pm

Deep Dive into Diodes

- ✓ Clinical Applications of Diode Lasers
- ✓ Laser-Assisted Surgical Procedures
- ✓ Photobiomodulation & Tissue Regeneration
- ✓ Practical Applications Across Dental Specialties

Modern Pulpal Management

- ✓ Modern Understanding of Pulpal Disease
- ✓ Evidence-Based Treatment Protocols
- ✓ Minimally Invasive Pulpal Therapy
- ✓ Lasers & Bioceramics in Clinical Practice

Earn 14 CPD Points
upon completion of this course.

Course Curriculum

Explore the latest advances in modern pulpal management and diode laser technology in contemporary dentistry. This course examines the pathophysiology and modern classification of pulpal disease, focusing on **evidence-based protocols and minimally invasive treatment options using lasers and bioceramic materials.**

It also explores the versatile clinical applications of diode lasers, from surgical procedures and soft tissue management to **photobiomodulation, healing and tissue regeneration.**

Through practical, evidence-based insights, participants will gain a deeper understanding of these technologies and the confidence to **integrate them into everyday clinical practice** across various dental specialties.

Course Director

Dr. Lan Tran

- 20+ years of laser experience (since 2002)
- President of the Australian Association for Laser Dentistry (AALD)
- WCLI Mastership & recognised Clinical Trainer
- Associate Lecturer, University of Queensland
