Course Directors

Dr Bharat Agrawal

BOralH(DentSci) GDip(Dent) (Gold Coast), PGDip(AdvAesRestDent) (ADE), MSc(AesDent) (London)

Dr Bharat Agrawal holds a Bachelor of Oral Health in Dental Science and a Graduate Diploma of Dentistry from Griffith University. Driven by his passion for aesthetic dentistry, he completed his Masters in Aesthetic Dentistry with Distinction (MSc AesDent) from King's College London and a Postgraduate Diploma in Advanced Aesthetic and Restorative Dentistry through ADE.

Dr Agrawal is renowned internationally, having presented extensively across Australia, the UK, and Asia on Invisalign, tooth whitening, minimally invasive aesthetic dentistry, and composite resin techniques. As a clinical speaker for Invisalign Australia and an opinion leader for multiple dental manufacturers, his expertise is recognized globally. His work has been featured as a clinical white paper by Invisalign Australia, highlighting his innovative approach to multidisciplinary and ethical aesthetics.

Passionate about minimally invasive smile makeovers, Dr Agrawal actively mentors recent graduates and operates private practices in gold coast, Brisbane, northern NSW and Melbourne.

Dr David Attia

BDS (Griffith), GradDip (Dent)(Griffith)), MSc (Oral Implantology)(Goethe) PGDipClin(Ortho)(CoL), FICOI

Dr. David Attia completed his undergraduate training at Griffith University, Queensland. Following graduation, Dr. Attia completed a Post Graduate Diploma in Orthodontics and Dentofacial Orthopedics through the City of London Dental School.

David's passion for surgery led him to complete a Master's in Oral Implantology through Goethe University in Frankfurt, Germany. His Master's thesis focused on a novel approach in full-arch implant rehabilitations and he presented his research at the 6th Annual Congress of Innovation Jumps in Oral Implantology. Dr. Attia now holds a teaching appointment with Goethe University as a surgical mentor for Australian students completing the program. He has also presented on the implementation of photography into clinical practice, as well as the importance of soft tissue management around implants both locally and abroad.

Dr. Attia is a core faculty instructor for the Australasian College of Dental Practitioners Graduate Diploma in Oral Implants and is also involved in live surgical training of dentists looking to begin or advance their journey in dental implantology.

David thoroughly enjoys the multi-disciplinary approach to dentistry. His unique combination of education and training allows him to implement cutting-edge treatment, offering patients comprehensive, predictable and long-term treatment solutions. He is passionate about sharing knowledge and is regularly involved in training and mentoring recent graduates.

Course Overview

A two-day didactic lecture and hands-on workshop on Dental Photography and Aesthetic Case Presentation. Consisting of lectures and hands-on exercises, participants will fine-tune their clinical photography skills alongside hands-on computer-based exercises using various software for effective aesthetic case planning and presentation.

This course is designed to assist the modern dental practitioner to develop the skills necessary to take high-quality photographic records, learn clinical protocols to appropriately implement such techniques, and learn basic presentation techniques to assist with patient communication and aesthetic planning.

Course Content

- Camera & Lighting Gear
- Basics Of Photography & Settings
- Clinical Photography
