

All-on-X Excellence: Full-Arch Implant Training with Dr Sam Park

Brisbane

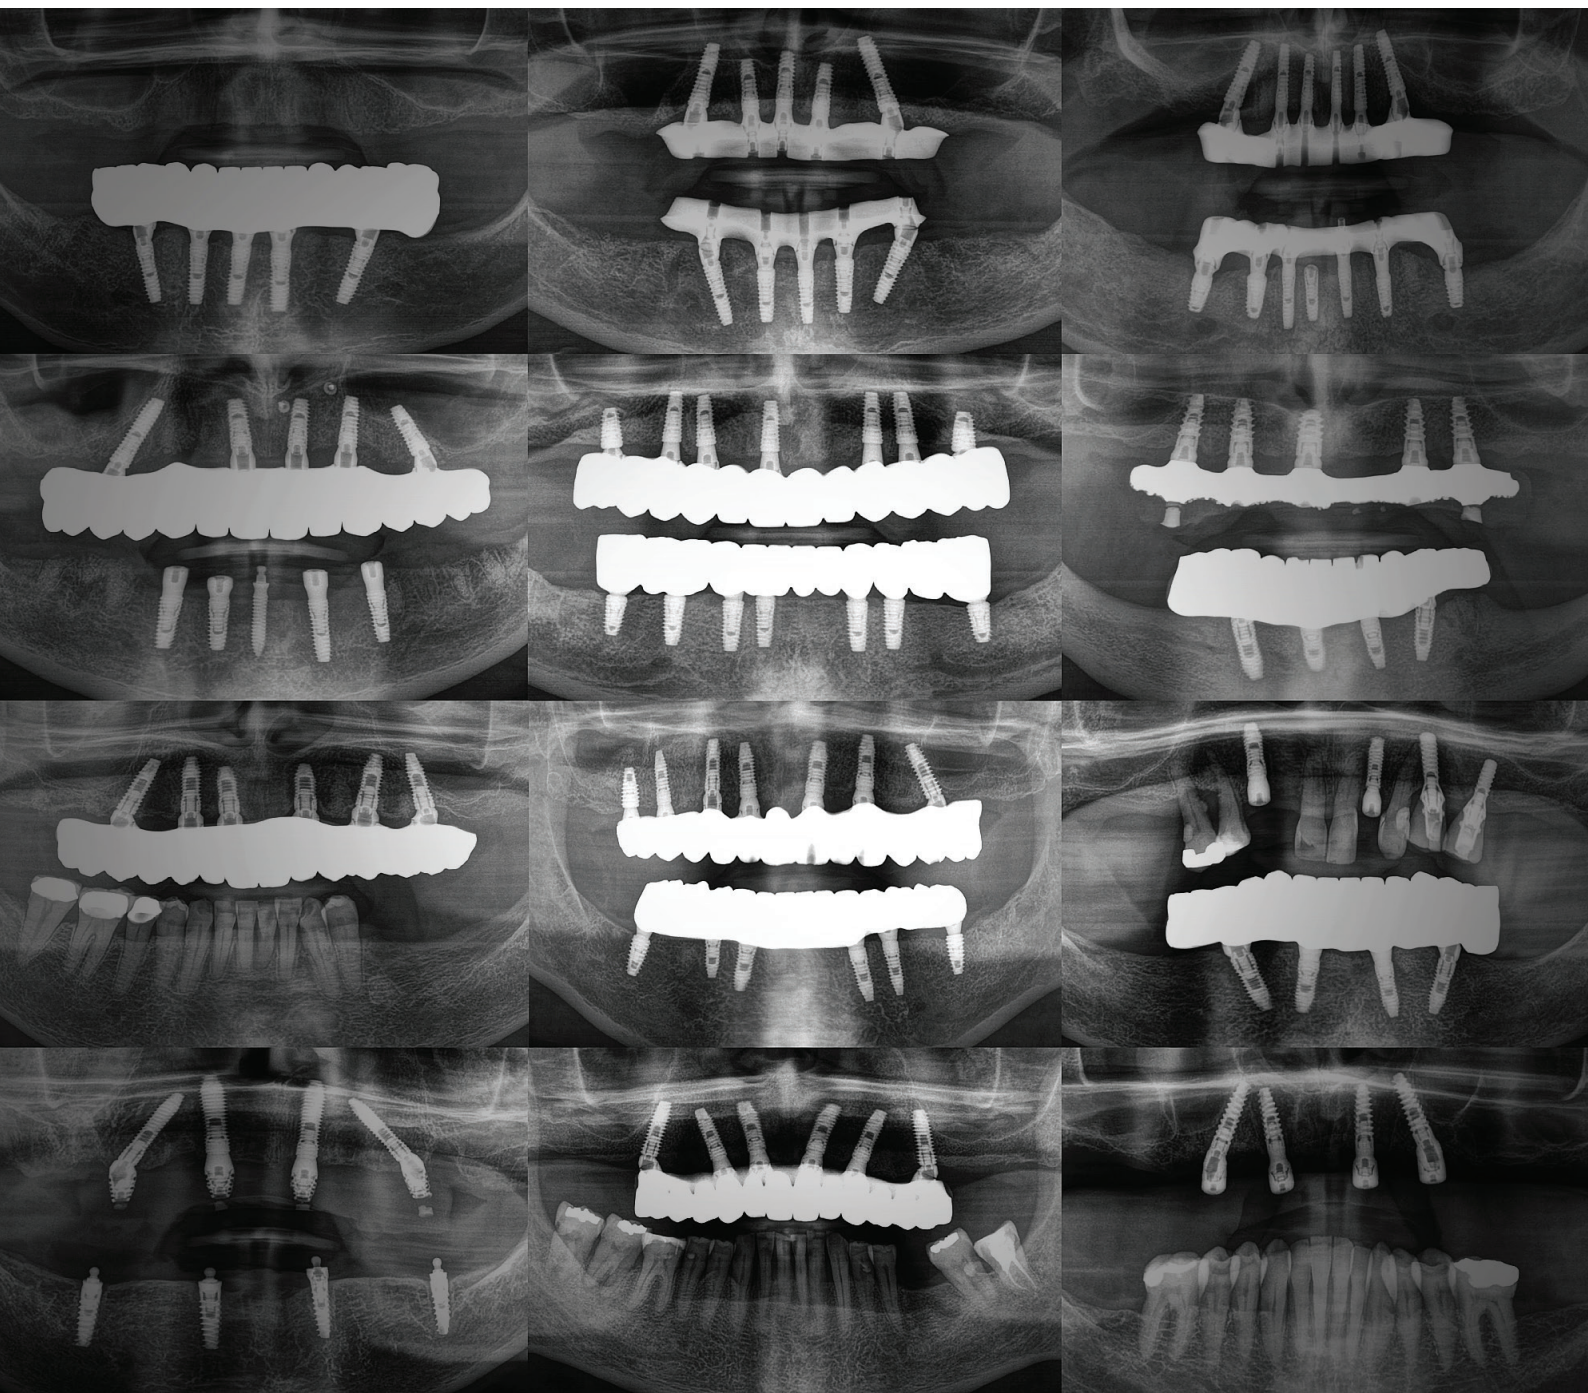

TBA

14 CPD Hours

12-13 Dec 2026

9:00am - 5:00pm

\$4000^{+GST}

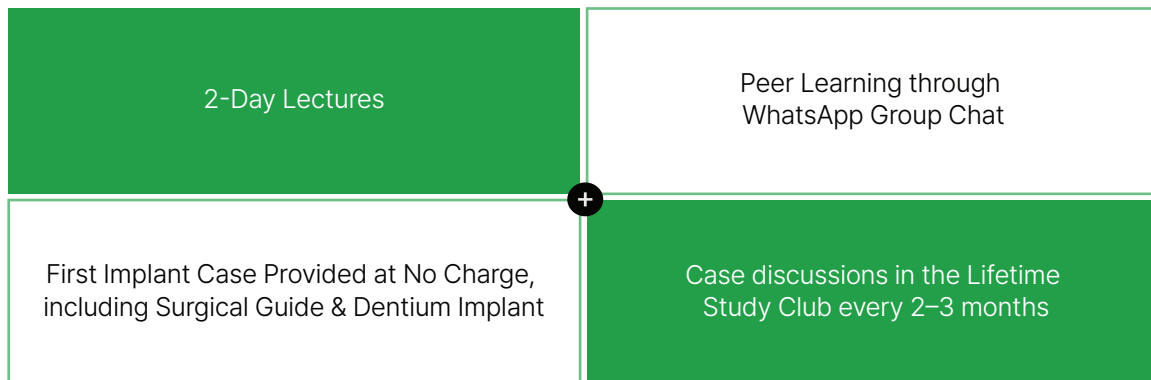

Seminar Summary

Full-Arch does not have to be aggressive.

This 2-day course teaches Dr Sam Park's gentle, controlled approach to full-arch implant treatment – how to plan, make the right surgical decisions, and achieve stable results without unnecessarily aggressive surgery. Through his real clinical cases and X-rays, you'll follow the full workflow from diagnosis to final prosthesis.

With 50%+ hands-on training, this course is ideal for dentists with implant experience who want to start full-arch with confidence, or refine their existing workflow.

Includes lifetime access to Dr Sam Park's Mentorship Club, with study clubs every 2–3 months.

Key Learning Outcomes

- Key maxillary and mandibular anatomical considerations for successful implant placement
- Pre-operative planning, integrating anatomical, functional and aesthetic considerations
- Prosthetically driven surgical treatment protocols
- Understanding the advantages and disadvantages of different full-arch materials and their space requirements
- How to utilise Multi-Unit Abutments
- Key principles and clinical considerations for immediate loading
- Understanding the digital workflow for full-arch cases

Hands-On Training

- Maxillary and mandibular implant placement for full fixed restorations
- Immediate loading denture conversions for SAME DAY DELIVERY
- Full-arch digital impression using intraoral scanner and scanbodies

**Course
Director**

Dr Sam Park

Dr Sam Park has been practising implant dentistry for the past 20 years.

He has been continuously advancing his expertise through active participation in countless national and international conferences and seminars.

Dr Park is a full-time clinician in a private practice focusing primarily on implant dentistry with an emphasis on advanced hard and soft tissue grafting. His expertise earned him the role of keynote speaker for Dentium Implant Australia for the past eight years.

Dr Park is a respected member of the International Congress of Oral Implantologists (ICOI), holding both Fellow and Diplomate status.

Understanding the fast-evolving nature of dentistry, Dr Park is aware of the challenges faced by dentists, where traditional university education may not fully prepare practitioners. He actively addresses this by providing mentorship and educational guidance to fellow dentists, empowering them with the necessary competencies and knowledge to excel in implant dentistry.

Testimonial

Jason W

I have completed Sam's Mentorship courses and I found them very helpful. Sam covered not only the fundamentals but also simplified implant dentistry in the vast sea of information out there. I believe if you ever felt you are still missing something after attending implant courses after implant courses, then this course is likely going to help just like it did for myself. Sam is very practical in his approach and is a great mentor.

Richard T

A great 2 day course for any practitioner who wants to take their skill and knowledge to the next level. Dr Sam Park's delivery was very insightful and detailed. I would definitely recommend this course to any practitioner those who are already comfortable with general implant surgery and simple rehabilitation. I am looking forward to planning my first All-On-Four+ case.

Arik P

The course covered All-on-X treatment in depth, offering both solid theory and practical hands-on training. Dr Sam Park delivered the content with clarity, expertise, and enthusiasm. His deep knowledge in implant dentistry and passion for teaching made the course truly engaging. He was approachable, attentive, and addressed every question with care. Having attended several of his courses before, I can confidently say they're valuable for all levels. Dr. Sam Park is an exceptional clinician, educator, mentor, and person!

Daniel T

Dr Sam is a wonderful teacher who did a great job with the recent full arch seminar. I learnt a lot and would not hesitate to do this again a couple of years' time when the knowledge gets updated. He is not a biased lecturer and he will not hesitate to talk about his failures, something that is very rare in the professional circuit.
