

Peri-Implantitis

Do You Have a Restorative Pre-nup?

This session focuses on prevention, not treatment — using the marriage analogy to walk through every stage of restorative care. It starts with the pre-restorative "pre-nup": consultation and informed consent before treatment. Then proper prosthesis design to reduce long-term risk, how changes in the jaw and surrounding teeth can affect a restoration over time, and the ongoing maintenance that keeps it all healthy.

Date	**11 Nov 2026, Wed 6:00pm-8:00pm**
Venue	**Crowne Plaza Perth** 54 Terrace Rd, Perth WA 6004
Lecturer	**Dr James Wong** BDSc WA, PGDip Dental Implantology (CSU), FICOI
